Michael Begg  
Community Energy Action

Hi Michael,

### **Speaking Engagement**

I am writing on the behalf of the Rotary Club of Christchurch Sunrise to thank you for addressing our club members on 9<sup>th</sup> March.

It was great for the members to have a chance to hear all about Community Energy Action. I'm sure you were shown full the appreciation from our club members for your early morning start. We believe it is important for us to add value to our community and your presentation reminded us of the need to remember and reflect these values.

Thank you for putting in the time and energy for what I found was a most interesting presentation.

Yours faithfully
